Projection is reopened on new nd groups of rejection:

Claims 6, 7, 8, 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 specifies a monomer polymerizing to form a product with pendant carboxyl groups. However, the claim goes on to recite a Markush Group including monomers possessing only sulfuric acid and phosphoric acid moieties.

In claim 14 "Lipids" is vague. It is unclear as to whether applicants claim all Lipids or only anionic Lipids, similarly in claim 6 "polyamino acids" is vague; some amino acids are charged, contradicting the earlier claimed nonionic segment. Likewise, in claim 7 "polyamino acids" is vague. Not all amino acids are anionic, as specified earlier in the claim.

Claims 6, 7, 8, 14 rejected.

Claims 5, 9-13, 15-26 allowed.

Any inquiry concerning this communication should be directed to Edward J. Webman at telephone number 571-272-0633.
